

Welcome to the Project

Newsletter 2, May 2013

Older People's Economic Wellbeing - learning for capability, capacity and citizenship

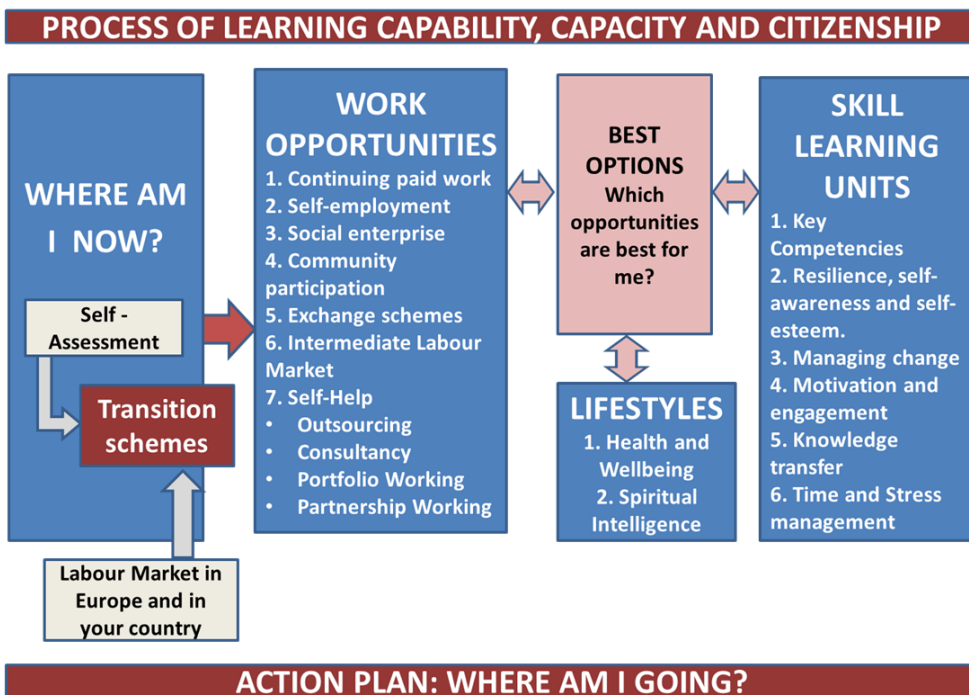

This **Newsletter** is intended to present you the basic structure of the model we have developed for our User Manual.

The 3C Project

...implemented under the framework of the Grundtvig Programme

*...intends to develop a self-study **User Manual** for senior citizens who want to be economically active in later life*

*...and the accompanying **Training guidelines** for professionals who may wish to assist senior citizens in using the User Manual*

The structure of the model has been derived from the identified list of eight questions that may be asked by a person interested in staying economically or socially active in their later life:

- Where is an older person at this time in his life?**
- What does he/she think is his/her next step?**
- What is the working environment in his/her country?**
- What are his/her options?**
- Which are his/her best options?**
- What does he/she need to do?**
- What support is there to help?**
- How can he/she put this into action?**

The Partners

Project Duration:

October 2011
-
September 2013
